Profile Summary

Energetic and detail oriented Computer Science student with strong knowledge in Java programming, Python, data structures and algorithms. Passionate about building innovative solutions through logical thinking and problem solving. Quick learner and highly adaptable, seeking an entry level position to contribute to organizational success while enhancing my technical expertise.

Education

B.Tech in CSE(AIML),   Nov 2022 – Present | Warangal
Kakatiya Institute of Technology and Science 🔗
- Expected May 2026
- **CGPA: 9.17/10.0** | Coursework: DSA, DBMS, OS, CN, OOP

Projects

Odyssey – Travel Journaling Application, *(Hackathon Winner)* 🔗   May 2025 – Jul 2025
- Led a 4-member team to build a travel journaling platform handling 2K–5K concurrent users, featuring interactive maps and secure user flows. Containerized the full system into 3 deployable services.
- **Tech Stack:** React, Spring Boot, MySQL, Docker, Leaflet, Geoapify, ShadCN UI

ResumeGPT – Smart Resume Enhancer, *(BITS Hackathon)* 🔗   Mar 2025 – Aug 2025
- Built a platform that generates professional resumes and enhances existing ones with JD match scoring and suggestions, achieving a 20% boost in resume quality while delivering results in under 10 seconds.
- **Tech Stack:** Next.js, Gemini API, Zustand, Tailwind, React PDF

Worknix – Modern Job Portal, *(Startup project)* 🔗   Aug 2025 – Sep 2025
- Developed and launched a job portal supporting thousands of listings, fast search, and role-based access. Added monetization and analytics, contributing to ad revenue growth and improved user engagement.
- **Tech Stack:** React (Vite), TypeScript, Tailwind, ShadCN UI, Supabase

StockPulse – Stock Data ETL & Dashboard, *(Data Engineering)* 🔗   Aug 2025 – Sep 2025
- Built a distributed ETL pipeline that fetches and processes data from 65+ companies for analysis. Created an interactive dashboard with visual insights and fault-tolerant scheduling to track and explore stock trends.
- **Tech Stack:** Python, FastAPI, Pandas, PostgreSQL, Streamlit, Matplotlib

Skills

- **Programming:** Java, Python, JavaScript, SQL
- **Domains:** Data Structures & Algorithms, System Design (Basics), AI/ML, Full-Stack
- **Tools:** Git, GitHub, Docker, AWS/GCP, Postman, CI/CD Pipelines, Linux/Unix commands.
- **Core Skills:** REST API's, debugging, performance optimization, deployment, Microservices basics
- **Soft Skills:** Problem solving, clear communication, Collaboration, adaptability

Certificates & ACHIEVEMENTS

- **STACKATHON 2025** – 1st Prize: KITSW intra-college hackathon for real-world solution building.
- **OnePlus Bug Bounty (2025):** Report approved and rewarded; recognized as "Master-Hand" contributor.
- **Oracle Certified Foundations Associate (2025)** – Oracle University.
- **Google Cloud (2024):** Completed the Generative AI Learning Path focused on LLMs and applied AI.
- **Building AI Applications with Haystack (2025):** Deeplearning.AI specialization.
- **Greenthicks (2025):** Contributed as a tech collaborator for a farm-to-table organic platform.
